TA, *Violent Politics*, Fall 2012 [Princeton]

High School Instructor, *Mathematics* (Teach For America), July 2009 - June 2011

University and Professional Service

Faculty Director

Data and Policy Summer Scholars Program In 2018, I launched and continue to direct DPSS. This program introduces students to elements of the Harris Core—teaching them how to solve basic and intermediate analytical tasks with the tools of causal inference we teach our full-time masters students.

Data Analytics Credential Program In 2021, I launched and continue to direct DAC, a an evening short course in data analytics and open-source coding intended for working professionals.

International Policy Action Lab In 2020, I launched and continue to co-direct IPAL with team members at Peking University. This multi-university program focuses on econometrics and open-source coding. The component I direct is focused on an intensive applied exercise—a Capstone project—where students work in a clinic-like setting on a real policy issue with original data.

Advising

Masters students and their placements

Wenyan Deng (Massachusetts Institute of Technology, Political Science PhD)

Changwook Ju (Yale University, Political Science PhD)

Morgan Spangler (UCLA, Political Science PhD)

Sebastian Hernandez (Yale University, Political Science PhD)
